Daily Living Aids

For 35 years Polymorit has been committed to producing the best quality daily living aids. These products may look very simple but they attend to the needs of those in their own homes who want a little bit more independence.

M001: MediDisk Turntable

This free-moving, lightweight stand-on turntable is ideal for individuals who need assistance to turn when making a transfer. The MediDisk turns a full 360° in any direction, making it suitable for a variety of transfer situations.

£48.25

T002: TurnEasy Swivel Cushion

The TurnEasy is a portable swivel seat cushion which is ideal for easier car access. This rotating cushion helps to alleviate back and hip strain by reducing the need for twisting movements.

£57.83

SA061: StandEasy Standing Frame

This sturdy standing frame offers a secure solution to those who require assistance with sit-to-stand activities from a chair, wheelchair, bed, or car. The frame features a dual handle option which allows users to adopt either a push or a pull motion when raising or lowering.

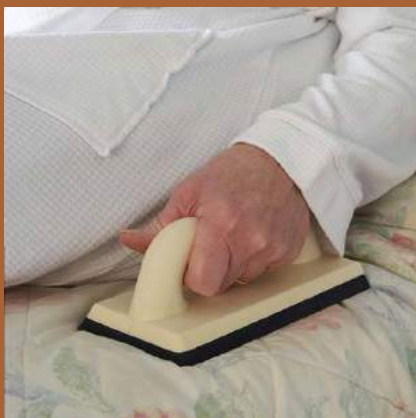

£414.49

O005: OneWaySlide Cushion

The OneWaySlide Cushion is ideal for use in a wheelchair, bed, armchair or even car. Its loop design allows movement in only one direction helping users to maintain their upright posture when sitting, without sliding or slipping forward.

£83.49

B007: BedBlocks Bed Handling Blocks

No more slipping on bed covers! With our specially designed blocks you can get the necessary grip you need. Our bed handling blocks are designed to ease movement when in bed.

£39.99

JG001: JustGo Cushion

This simple cushion, aptly named the JustGo Cushion, is designed as a lightweight turning aid for people on the go. Made from Nylon fabric, the JustGo is very easy to swivel on, making getting in and out of the car much easier.

£29.49

THE WHEELLATOR WALKING AID

The benefits of walking are well known but the Wheelator will bring new life into your daily routine.

WHEE001: Wheelator Walking Aid

Extending walking activity is no longer a problem as the primary purpose of the Wheelator is to encourage walking for health and therapy. If the user needs to rest during their walk they can simply turn the Wheelator around, and sit down for a break. Then when they are ready the user can continue by themselves or be pushed by an assistant. The Wheelator offers users more independence, freedom, comfort, security and stability and is designed to provide optimum flexibility when enjoying the great outdoors.

£963.00

THE AIROSPRING PRO RANGE

Pressure care should be taken seriously and prevention is better than cure. The Airospring Pro range incorporates new technology.

AS100PRO, AS200PRO, AS300PRO, AS400PRO, MT230PRO: The Airospring Pro Range + PU Stretch Covers

The Airospring Pro range of cushions and mattress topper represent a completely new concept in pressure care. Utilizing patented XD spacer fabric inside the cushion, the Pressure Relief Optimized (PRO) cushion possesses superior qualities, exceeding the performance of both specialist memory foam and pressure relieving gel, giving an experience comparable to floating on air.

The Universal Therapy System (UTS) Mattress

Innovation in pressure care. This unique design of alternating pressure mattress sets it apart from the others. This is part of the Steiss Range.

UTS001: Universal Therapy System (UTS) Mattress

The Universal Therapy System (UTS) 4-in-1 hybrid pressure mattress presents a unique concept, bringing together years of experience and advances in technology. The mattress incorporates an alternating air pump inside the unit and includes a repositionable foam section to adjust comfort levels and effectiveness of alternating air pressure therapy. The ability to step up or step down through grades 1 to 4 to manage pressure care needs, means that only one mattress is required throughout the care cycle of the user, from at-risk to palliative care. The UTS 4-in-1 hybrid mattress system will help to drive down costs and improve outcomes for carers and their patients.
